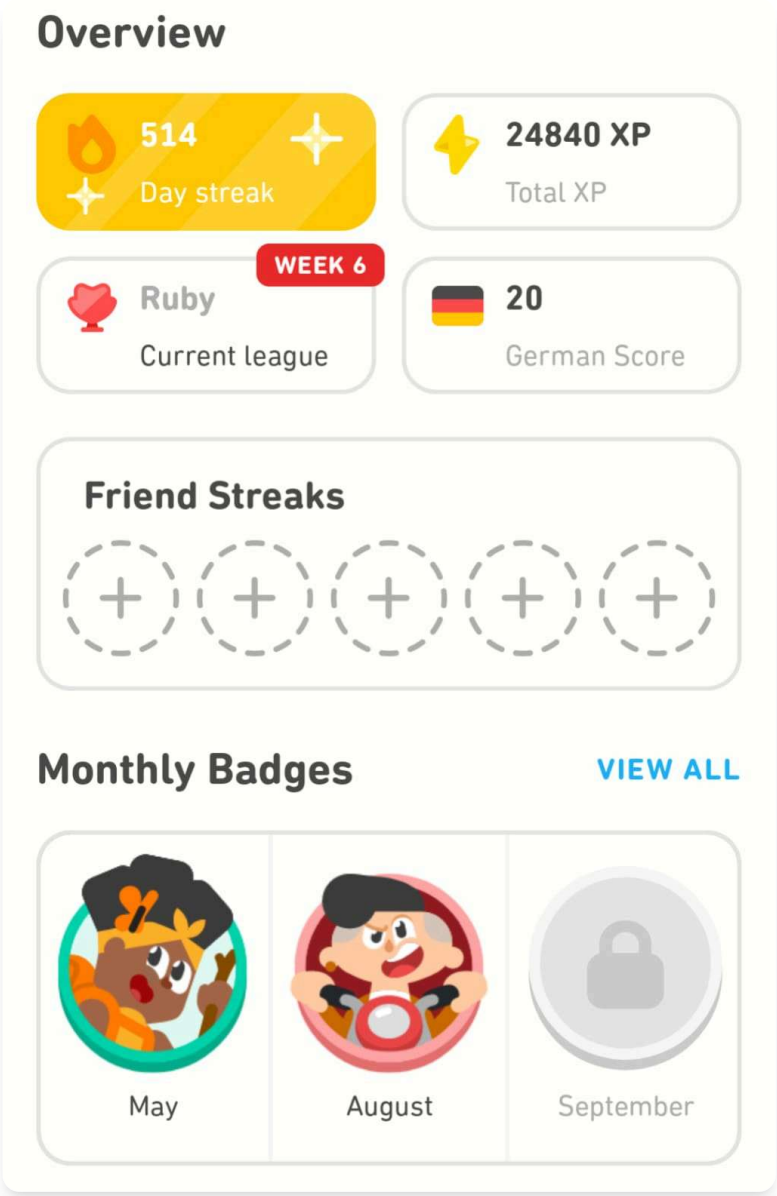
Welcome t

I'm **Mohith Sri Satya Sai Yalamarthi** — a passionate frontend developer and aspiring AI/Data Science specialist with a strong foundation in both engineering and design thinking. I hold a Bachelor's degree in Computer Science with a CGPA of 8.8, and I've cultivated a robust skill set that bridges creativity and precision


As part of my long-term commitment to academic and cultural integration in Switzerland, I have been consistently **learning German and currently maintain a 514+ day streak** on Duolingo, complemented by formal A2-level certification. This daily discipline reflects not only my linguistic progress but also my deep respect for Swiss multilingualism and my proactive approach to adapting to life in a German-speaking academic environment. I believe that language is a bridge to deeper collaboration, and my ongoing efforts demonstrate my readiness to engage meaningfully with peers, professors, and the broader Swiss community
